## EXPERIENCE

### FRONT-END DEVELOPER & DESIGNER

SEPT 2021/PRESENT

Bearly Intelligent Productions

Designs on-brand websites for clients and assists in building out the front-end with React and Sass.

- Wireframes and high-fidelity mockups created with Figma.
- Develops frontend with Next.js and Wordpress Headless CMS.
- Components are fully responsive and optimized for dynamic content.

### WEB DEVELOPER & DESIGNER

FEB 2021/PRESENT

Freelance

Designs, builds, and deploys apps from start to finish using React, Node.js, MongoDB and more.

- Built myStyler, a full-stack (MERN) app which generates unique, professional resumes (including this one)!
- Designed UX wireframes and a high-fidelity interactive prototype for a transit alert app.

### UX DEVELOPER INTERN

JULY 2021/SEPT 2021

42 Growth Strategies

Developed frontend for custom Shopify storefronts using Javascript, Liquid and Tailwind CSS.

- Tested and improved storefront SEO, web performance, and accessibility.
- Built responsive, flexible components for dynamic content.

### ART ADVISOR

NOV 2019/FEB 2021

Kevin Barry Art Advisory

Developed, produced and delivered custom artwork in accordance with client vision and budget. Clients include Google, Kaiser Permanente, and more

- Presented unique, custom art concepts to stakeholders.
- Communicated closely with fabricators and clients to ensure production and installation deliverables.
- Gross revenue of team's total sales in 2020 estimated at \$500,000.
